

# CAST STEEL WEDGE GATE VALVES WITH RUBBERIZED WEDGE

DN 16"… 40" PN 1,0 MPa

## Application

Performing shut-off function at pipelines transporting *abrasive fluids* at the temperature up to **+80°C**.

**Design standard:** GOST.

**Operation:** electric actuator, pneumatic actuator.

**Tightness:** complete tightness (zero leakage).

**Connection to the pipeline:** flanged.

**Bore:** full bore.

**Sealing:** thermo expanded graphite.

**Trim:** corrosion-resistant overlaying.

### **Design features:**

- rubberized wedge,
- pressure relief plug in the cover,
- hatch in the bottom part of the valve body.

**Minimum service life:** 5 years.
