

FORGED-WELDED STEEL GATE VALVES

DN 6"...60" PN 0,1...1,6 MPa

Application

Performing shut-off function at pipelines transporting:

- *air*,
- *water and other liquid and gaseous mediums* at the temperature up to **+300°C**

Design standard: GOST.

Operation: hand wheel, gear or electric actuator.

Tightness: tightness class B, C, D.

Connection to the pipeline: flanged, welded.

Stem: rising, non-rising.

Bore: full bore.

Sealing: thermo expanded graphite.

Wedge: corrosion-resistant overlaying.

Design features:

- flexible wedge
- ribbed body
- pressure relief plug in the cover
- size-conscious design.

Minimum service life: 10 years.
